DETAILED ACTION

1. Newly submitted claims are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The original claims were drawn to a fluid which had spacer activity, examinable in class 507. Newly submitted claims are drawn to a composition which can be a wellbore cement classified in class 106. The claims to a spacer did not require, the specified search in class 106 for cements, as now required by the current claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 33, 40-47, 49-55, 58, 61, 62, 65, 106, 110-121, 125-132, 134-137 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip C. Tucker whose telephone number is 571-272-1095. The examiner can normally be reached on Monday - Friday, Flexible schedule.
